

**Yes on AB 1147 (Bonilla):**

According to the Polaris Project, one of our nation's largest anti-human trafficking organizations, it is estimated there are more than 5,000 fake massage businesses nationwide. Fake massage businesses use force, fraud, and/or coercion to maintain control over the women and to cause them to believe that they have no other choice but to provide commercial sex. These are often the defining features of a sex trafficking situation.

**COALITION FORM**

**YES!** Please list me/my organization support to Assembly Bill 1147 (Bonilla). Current law regulating massage therapy businesses makes it difficult for cities and law enforcement to shut down illicit massage establishment. We are interested in supporting AB 1147 because it will decrease opportunities for human trafficking and hold business owners accountable for what occurs in their massage establishments.
